WHAT IS CBD?

Cannabidiol, traditionally known as CBD is one of the many components found in industrial hemp, a direct descendant to the Cannabis family, marijuana. CBD is used for its healing properties going back as far as the Roman Empire for its health, wellness and wellbeing properties.

THE TRUE BENEFITS OF CBD CAN NOT BE STATED FOR PRESSURE TO COMPLY FROM A NUMBER OF REGULATORY BODIES, WHO DICTATE WHAT WE ARE ALLOW TO SAY. REST BE ASSURED THAT YOU THE CONSUMERS AND REGULAR USERS OF CBD ARE THE ULTIMATE JUDGE AND KNOW EXACTLY HOW USING CBD HAS HELPED. VOTE WITH YOUR FEET BY PUTTING PRESSURE ON YOUR LOCAL MPS SO THAT THEY CAN MAKE ADEQUATE LEGISLATION TO ENSURE LEGALISATION.
